**BioSpec Global Solutions Inc., announced today that it has filed Eurasian patents for market expansion into China.**

New York, Montreal , October 14, 2009 BioSpec Global Solutions Inc., and partner –**ICBS Ltd. (OTCPK: [ICBT](#))**, announced today the filing of Eurasian patents in anticipation of entry into China.

“China is one of the world’s largest markets for our analyzer’s and has one of the worst water situations on the planet” said Don Saunders President and CEO of BioSpec Global Solutions.

The company is currently in talks with an undisclosed Chinese company representative in Canada. BioSpec Global Solutions, has developed the TOGS 9000 to analyze total bacterial count in water samples. Given the advantages not only on time advantage ( 10 Hours for test results) but the accuracy of these machines, can equip agencies with the technology needed to insure safe drinking water for their citizens.

Verification studies for the TOGS™ 9000 has been completed by Ryerson University and the instrument has, like the Pro3000™, been accepted by the EPA in the USA for use in presence absence testing of drinking water when used with an EPA approved method and reagent. The TOGS™9000 has been used by the United Nation for a emergency relief project in the Dominican Republic. A verification study by Michigan State University, an EPA laboratory, is ongoing for viruses. Further verification and validation studies will be done shortly by users and ETV (Environmental Technology Verification) for microbial quantification for beach and wastewater applications.

The company holds worldwide patents on the TOGS 3000 and 9000.
